**OSG BILLING SERVICES WINS BILLING & OSS WORLD
2008 EXCELLENCE AWARD FOR CUSTOMER LOYALTY**

ENGLEWOOD, NJ – May 6, 2008 – OSG Billing Services, a market leader in the invoice presentment and billing services industry, today announced that it has won the Billing & OSS World 2008 Excellence Award for “Best Customer Loyalty Solution”. Previously, OSG Billing Services has won awards for “Best Bill” and “Operational Excellence”.

Billing & OSS World has acknowledged OSG Billing Services in the best customer loyalty solution category for its work with Inland Cellular, a rural cellular communications company located in Lewistown, ID. In order to comply with FCC regulations for E911, Inland Cellular was mandated to convert 95 percent of their current customers from outdated analog phones to new digital phones in six months. Together with OSG Billing Services, Inland Cellular devised a three-fold plan of action that helped them to exceed their goal.

“OSG Billing Services was very organized and on top of the requirements we set forth,” stated Denise Smith, director of marketing at Inland Cellular. “They definitely took the worry out of our hands and provided exceptional customer service throughout a total of five separate direct mailings.”

“OSG Billing Services’ achievements were judged by a panel of experts as exemplary among its peers. Billing & OSS World is pleased to acknowledge OSG Billing Services as an example of excellence in customer loyalty for the telecommunications industry,” said Mike Saxby, publisher of *Billing & OSS World Magazine*.

Ron Whaley, vice president of sales and marketing for OSG Billing Services, accepted the award and expressed, “We are proud to be distinguished in this special category and would like to thank Billing & OSS World for recognizing invoice presentment as a critical component to business.”

Billing & OSS World Magazine presented OSG Billing Services with the award at the Billing & OSS World Conference & Expo in Chicago on April 30, 2008. The awards are designed to recognize leaders in the development and deployment of billing and OSS technologies and solutions.
